The above link provides detailed information on the following items

Research Fellowship For Young Scientists

A research incentive fund is provided to support outstanding young researchers in dedicating themselves to their research.

Short-term Employment

You can be employed with the purpose of contributing to teaching support tasks and participating in collaborative research.
(TA, RA, QTA, GSI)

Make New Standards Program For The Next Generation Researchers

Highly motivated and exceptional doctoral students can receive financial support and participate in educational programs to cultivate various skills.

Doctoral Course WISE Program

The programs are five-year integrated doctoral programs, and successful applicants are eligible for participation in a special program and receive financial support.

Tuition Fee Exemption

In addition to the tuition waiver for financial reasons, there is a tuition waiver system for students who have enrolled in specific programs*.

*This tuition fee waiver is subject to budget approval and allocation and may be subject to change in the future.

Support for doctoral students

THERS Make New Standards Program for the Next Generation Researchers

*This program is initiated by MEXT, to support graduate students in advancing to doctoral programs while also aiming to enhance research capabilities and diversify career paths.

Financial Support(3 years (4 years for medical PhD course))

- ① Research support grant (for living expenses)
180,000 – 200,000yen /month
- ② Research expenses : 250,000 – 500,000yen / year
- ③ Overseas travel financial support and paper submission support

*Tuition waiver system if the budget is approved.

About 700 doctoral students (D1–D3/
D1–D4 for medical PhD course) can take
this support of MNS program.

Various programs to develop PhD skills and career paths, cultivate global competence and enhance interdisciplinary collaboration are provided additionally to financial support.

New recruitment for D1 students

*Twice for April enrollment

- M1: December – January About 100 students
- M2: December – January About 120 students (AY 2025)

Presentation and communication opportunities

Broaden Your Education
While Eating Lunch:
Graduate Research in Wonderland

I want to make the most of my lunchtime;
I want to broaden my knowledge; my research has reached a dead end...
If you identify with any of these, then the 5 min Research Communication Lunch is for you!
A lunchtime cross-disciplinary student exchange; easy to join!

Recommended if you...

- ☒ want to be acquainted with the latest research in the shortest time
- ☒ want to connect to new ideas and learn about research in other fields
- ☒ are curious about research differences between the humanities and sciences
- ☒ want to easily join in or listen
- ☒ have hit a wall with your own research theme
- ☒ want to network with other graduate students
- ☒ want to learn how to communicate your own research to others efficiently

I am an outstanding student
and want to receive
financial support

I don't know if
I can complete
my PhD in 3 years

I am anxious
about feeling isolated
while undertaking research

I am worried
about my career
after graduation

We provide graduate students
with useful information on
PhD skills training,
financial support etc.
