  - UpToDate
2. Scopus

# Contents

## 1. **EBM related databases**

- **CochranCollection (EBSCOhost)**
- **UpToDate**

## 2. Scopus

# Cochran Collection (EBSCOhost)

- Cochrane Database for Joint Planning
- Supporting the practice of EBM (Evidence Based Medicine)
- Limited to well-selected data with less numbers of recording
- Also use in systematic review

# Cochran Collection

Cochrane Database of Systematic Reviews	Full texts of systematic reviews available Updated four times a year
Cochrane Central Register of Controlled Trials	Bibliographic information database for controlled clinical trials
Cochrane Methodology Register	Bibliographic database on methods of controlled clinical trials
Cochrane Clinical Answers	Includes clinical questions, concise answers, and evidence can be drilled down and investigated from relevant Cochrane reviews.

# Cochran Collection

From the website of Medical Library

[https://www.med.nagoya-u.ac.jp/medlib/index\\_en.html](https://www.med.nagoya-u.ac.jp/medlib/index_en.html)

The screenshot shows the top part of the Nagoya University Medical Library website. At the top left is the library's logo and name in Japanese and English: "名古屋大学附属図書館医学部分" and "Nagoya University Medical Libr". Below this is a dark blue navigation bar with the word "Home" in white. Underneath is a search section for "NU OPAC" with a "Keywords" input field and a magnifying glass icon. Below the search are several links: "Electronic Journal List", "Off Campus Web Services Start Page", "PubMed (URL for Nagoya Univ.)", "MEDLINE", "Cochrane (EBSCOhost)", "Ichushi (Japanese)", and "Web of science". The "MEDLINE" and "Cochrane (EBSCOhost)" links are highlighted with an orange box.

The screenshot shows a list of Cochrane Collection items. Each item has a checkbox on the left and a title. The first item is "Cochrane Central Register of Controlled Trials", the second is "Cochrane Database of Systematic Reviews", and the third is "Cochrane Methodology Register". Each item has a brief description and a "More Information" link. The checkboxes for the first three items are highlighted with orange boxes. At the bottom of the page, there is a large orange banner with the text "Press 'Continue' at the top of the page".

- Cochrane Central Register of Controlled Trials**  
Cochrane Controlled Trials Register is a bibliography of controlled trials identified by contributors to t  
[More Information](#)
- Cochrane Database of Systematic Reviews**  
*Cochrane Database of Systematic Reviews* contains full text articles, as well as protocols focusing on  
studies, each too small to produce reliable results individually.  
[More Information](#)
- Cochrane Methodology Register**  
The *Cochrane Methodology Register* (CMR) is a bibliography of publications which report on method  
hand searches. The database contains studies of methods used in reviews and more general metho  
(bibliographic details) and in some cases a summary of the article. CMR is produced by the UK Co

# Scopus

The screenshot shows the Scopus search results page for the query 'TITLE-ABS-KEY ( pediatrics )'. The page displays 162,302 document results. A search bar on the left allows for refining results by categories such as Open Access, Year, Author name, Subject area, and Document type. The main results area shows a list of documents, with the first result being 'Diagnostic criteria for multiple sclerosis: 2010 Revisions to the McDonald criteria' by Polman, C.H., et al., published in 2011 in Annals of Neurology. The 'Cited by' column for this document shows 6332 citations. A callout box points to the 'Analyze search results' link, and another callout box highlights the 'Sort on: Cited by (highest)' dropdown menu.
